

DRY BRUSH

easy Varnish - pigment

1. Use a flat brush
2. Use a little colortrix/Powercolor pigment
3. With your brush mix the pigment(s) and some Easy Varnish
4. Remove paint surplus @ kitchen paper/cloth
4. Hold your brush flat (evtl. test color)
5. Carefully and steadily highlight relief
6. Add some more grains of pigments and mix
7. Repeat point 5 to obtain little by little more highlights and color intensity

*NOT ENOUGH EASY VARNISH VERSUS PIGMENT

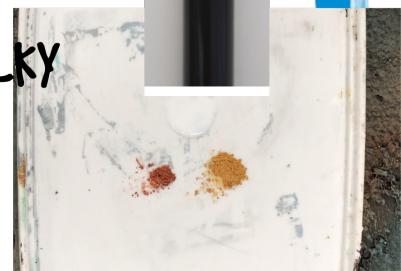

= TOO GRAINY SUBSTANCE

= NOT ENOUGH ADHERENCE/REPARTITION PIGMENT

* TOO MUCH EASY VARNISH VERSUS PIGMENT

= NOT ENOUGH COLOR QUANTITY

= NOT ENOUGH COLOR INTENSITY / TOO MILKY
