I

Use a damp wet synthetic sponge.

Dip it into the binder

PowerTex Textile Hardener Black.

Apply a thin layer of it
onto a wooden surface.

Sprinkle

PowerTex Easy3dFlex powder onto it.

Do not cover the whole surface.

For a good adherence massage with your fingertips

the Easy3dFlex

carefully but deep

into the PowerTex and Wood Structure.

Eventually add some more Easy3dFlex or vice versa

if needed smoothly remove excess

[WWW.\(REYARTE.BE](http://WWW.(REYARTE.BE) powder with a plastic brush.
