

# HUE, TINT, TONE & SHADE

**COLOr** is the general term we use to describe every hue, tint, tone or shade we see.

A **HUE** refers to the dominant color family.

12 colors on the wheel

**TINT** = 1 of the 12 colors/hues with only white added (also called pastel)

**TONE** = 1 of the 12 colors with grey (black + white)

**SHADE** = 1 of the 12 colors with only black added
