

POWERTEX TRANSPARENT + PIGMENT POWERCOLOR

Mix 1 liter of Powertex Transparent
with 1 small pot of 40 grams of
power color pigment or 40 g
of a mixture of power color pigments.

Adjust the amount in proportion
to the volume you need.

The object made with Powertex Transparent
(with or without added pigment)
for OUTDOOR EXPOSURE MUST ALWAYS
be protected with 2 layers Easy Varnish of Powertex
this after your creation is fully dried
(+ - 6 weeks in ventilated /heated place of min. 18 °).
Let the varnish coat cure for 2 weeks
before you place your object outside.
