

# BISTER

## POWERTEX - POWDER - 7 COLORS

Take an empty (spray) bottle (app. 100ml)  
and fill it with (distilled) water.

Add a coffee spoon of bister powder,  
put the lid on the bottle and shake well.

Pour the mixture through a very fine sieve if there are  
some granules left and refill the (spray) bottle.

For a lighter result, add more water to the mixture.  
To intensify the color add a few granules.
