

BINDER

PIGMENT / FILLER

Binders bind and/or dilute (an) organic pigments.

The binder determines
the properties of the paint and fillers.

There are a lot of types of binders.

ACRYLIC DISPERSION, CASEIN, OIL, WAX, RESIN,
ARAB GUM, SHELLAC, EITEMPERA, ...

Some of them have to be solved first
in a solvent such as water or acetone.
the latter evaporate during the drying process.

POWERTEX BINDERS:

TEXTILE HARDNER, EASY VARNISH, EASY COAT,
EASY GLOSSY, EASY STRUCTURE, POWERPRINT, POWERWAX
