

1. GO TO WEBSITE [WWW.TRYCOLORS.COM](http://WWW.TRYCOLORS.COM) in your web browser

# WWW.TRYCOLORS.COM

2. CREATE AN ACCOUNT & SIGN IN

The screenshot shows the TRYCOLORS website interface. On the left is a dark sidebar with a menu containing: Mixer, re:Mixer, Customize, All colors, All palettes new, Game, Contacts, Login (highlighted in teal), and a dark footer. The main content area is light gray and divided into two sections. The top section is titled "Login" and contains an "Email" input field with the placeholder "Email", a "Password" input field with the placeholder "Password", a teal "SIGN IN" button, and a link for "Forgot password?". The bottom section is titled "Create your account" and contains a "Name" input field with the placeholder "Your Name", an "Email" input field with the placeholder "Email", a "Password" input field with the placeholder "Password", and a teal "SIGN UP" button.

3. LOG IN with your email address & password you signed up with

This screenshot shows the same TRYCOLORS website interface as above, but with the "Login" form filled out. The "Email" input field now contains the text "clemy@creyarte.be" and is highlighted with a yellow background. The "Password" input field contains a series of dots ".....". The "SIGN IN" button and the "Forgot password?" link are still visible. The "Create your account" section remains unchanged.

#### 4. CLICK ON CUSTOMIZE (left tab selection)

## 7. CLICK ON THE + SIGN TO ADD (AN)OTHER COLOR HEXCODE(S) TO YOUR CUSTOM PALETTE

The screenshot shows the TRYCOLORS website interface. On the left is a dark sidebar with a menu containing: Mixer, re:Mixer, **Customize** (highlighted in teal), All colors, All palettes new, Game, Contacts, My Palettes, and Settings. The main content area has a header 'Customize your mixer' with a sub-header 'Create custom palette'. Below this, there is a 're:Mixer' section with instructions: 'You can define your very own set of original colors. Use color wheel to pick needed color or input color-hex in the field below. You can add original colors as much as you want. When your palette is OK - click on the button "TRY THIS PALETTE". Also you can use our predefined palettes.' A purple banner for 'Slim bereikbaar' from 'proximus' is visible. The 'Create custom palette' section features a white circle with a '+' sign, a text input field containing '#f3f7f9', and a 'REMOVE THIS COLOR' button. Below the input field is a color wheel with a square color picker overlay.

**8. WHEN YOUR CUSTOM COLOR PALETTE IS COMPLETE CLICK ON:  
CLICK ON THE 'SAVE THIS PALETTE' BUTTON & THEN CLICK ON YES**

**THEN CLICK ON THE 'YES' BUTTON**

## 9. COLOR PALETTE IS NOW ADDED TO 'MY PALETTES TAB'

### What is the re:Mixer?

Remixer is a complex algorithm, that can solve the problem of color matching. If you have a certain set of colors and don't know how to mix them to receive desired color - re:Mixer will help you. Just pick set of colors and needed color and click "find best match". Remember, that some colors can't be obtain by mixing. The algorithm shows you nearest possible color in this case.

If you want to use your very own set of colors, please [Sign In](#) and then Create and Save [custom set](#)
