

INK

Ink is a liquid or paste that contains pigments or dyes and is used to color a surface to produce an image, text, or design.

Ink is used for drawing or writing with a pen, brush, or quill.

Thicker inks, in paste form, are used extensively in letterpress and lithographic printing.

There are water and non-water resistant inks, and respectively yes/no color fast.

In comparison to the past, today a big variety of colored inks is available.
